

Satya Prakash

Frontend Developer

Seeking a role as a front-end developer so I can use my experience and knowledge in different front-end frameworks and libraries for making interactive interfaces and better user experiences. Also, I want to gain confidence and fame using my potential in the field of "Web Development" and express my innovative creative skills for self and company growth.

Git & Github

🏠 PERSONAL PROJECTS

My Portfolio

- I have created my portfolio website in which I have mentioned about my skills, projects, experience and my contact.
- view project:
<https://portfoliosatya.netlify.app/>
- github link :
<https://github.com/coderSatya/myportfolio>

React COVID19 Tracker

- With the help of Line, Bar and Pie chart you can find the total number of Confirmed, Recovered and Deaths in global as well as any part of Country or individual State. For CSS I have applied Material UI.
- View project :
<https://coviddatachart.netlify.app/>
- github link :
<https://github.com/coderSatya/covidchart>

REACT CRUD OPERATION

- Performed CRUD operation using React. Instead of backend services, here I have taken help of JSON server. You can run the command `npm run json-server` which will open in port 3002 and then perform crud operation.
